

One on One: Mentoring Intensive

Transformational Retreat

Thursday, February 9, 2012 10am to 5pm \$125

Portland Location TBA

TOPIC: Exploring Money & the Material World

What is the core belief that maps you and keeps you from realizing unconditional happiness and true freedom? The pattern you have been working on for some time, yet it still has you by the tail? The enemy you can't fully vanquish – the one that hooks you back in?

Spend a full day in retreat, practicing old skills and developing new ones with focused support, clear one-on-one feedback and facilitation.

In the morning, we will have a two-hour clinic in sacred space to explore our areas of struggle and to identify our personal themes and internal demons in regard to MONEY. Each participant will have a chance to work with a teacher on clarifying these themes so they can be most available for deep excavation, insight, integration and transcendence.

In the afternoon we will review some of the common themes and traps of the material world in this time and place. Each participant will be held in the ceremony of our mesas as we explore the deep waters of our unconscious terrain in order to come to a more true and present place in our relationship with material support and money. This will include practices of quietness, mirroring, witnessing and testimony, releasing energetic imprints, soul retrieval and forgiveness, compassion, reframing ... all heading back to quiet stillness once more.

Feed your compassion and presence in community with others – take the opportunity to share questions and discoveries with your peers or to work quietly and more privately. Join us as we reset our intention and work deeply with the land, the ancestors and our mesas.

☯ Please bring your mesa, a journal and a hand-held mirror ☯

If you do not work with a mesa, bring your own medicine bundle or the tools of your practice.

The retreat will be facilitated by Rosemary Beam and Ellyn Rosenthal, shamanic healers and teachers working in the Peruvian tradition. Experienced workshop leaders, they integrate shamanic work with Mystery Teachings from many traditions, including Buddhist dharma, Native North American influences, Reiki, crystal healing, European shamanism and the current understandings of Quantum Healing and non-duality. They are known for their compassionate and honest approach that facilitates deep personal transformation and expanded awareness.

The size of the group is limited, and advance registration is advised.

To register, contact Rosemary at info@rosemarybeam.com or 503.484.5426
